# CUSTOMER SERVICES

This catalogue contains over 3500 extra items, each marked with the extra symbol. These are available in our extra stores today or can be sent to your local store – or we can even deliver it. See page 6.

# Argos CHECK AND RESERVE IT

**CHECK & RESERVE IT makes shopping at Argos even easier.** You can use this handy service to check the latest prices, reserve your items so they're ready and waiting in-store, or order extra products.

There are three simple ways to **CHECK & RESERVE IT:**

## Call 0870 600 1010

- Make a note of the item's catalogue number and your store number (see page 1763)
- Call the number above and follow the simple steps to reserve your order
- Pop into the store to collect your order and pay

## Visit www.argos.co.uk

- Check the latest prices and availability by adding items to your trolley
- Type in your postcode and we'll tell you your nearest store
- Choose to reserve your items, then note down your reservation number
- Pick up your items in store, or have them delivered for only £4.95 (see page 6 for details)

## Text 61201*

- Text the catalogue number and store name to the number above. Make sure there's a space between them eg. 5003727 Woking
- We'll reply straight away to let you know if it's in stock, giving you the latest price and the option to reserve it
- It your item isn't in stock, we'll text you when it's available

* We're sorry, but we can't reserve extra items by text at this time

If you want to collect an extra item from a regular store, use **CHECK & RESERVE IT** to save you a journey. Just order it and we'll get it to the store, usually within 3 working days.

CHECK OUT TODAY'S LATEST PRICES

VISIT WWW.ARGOS.CO.UK OR TEXT THE CAT NUMBER TO 61201

# GET IT DELIVERED

**Whatever you've ordered, whether it's a new washing machine or even a new watch, we can deliver it right to your door.** That means all you have to do is place your order and wait for it to come to you – no more heavy shopping bags!

## Smaller items

| | |
|---|---|
| **48 hours**<br>Or on a day of your choice | **Only £4.95** |
| **Next day**<br>If you order before 1pm | **Only £4.95** |
| **Saturday** | **Only £7.90** |

If your item's small enough for one delivery person to carry it, we'll usually get it to you within 48 hours, or even by the next day if you order before 1pm.

**Saves you time** Plus, for most orders we can tell you if it will be a morning or afternoon delivery. Work during the week? Don't worry – for a little extra we can deliver on Saturdays too.

**We've made it easier** If there's no one home when we call round, in most cases we can leave items with a neighbour or in a safe place. We'll either leave you a card letting you know where to pick it up from, or let you know your options for having it redelivered.

## Bigger items

| | |
|---|---|
| **2-3 days** | • Selected items |
| **7 days** | • Large-screen TVs<br>• Garden furniture<br>• Large kitchen appliances |
| **14 days** | • Most furniture including beds<br>• Leisure and sports items |
| **28 days** | • Leather furniture<br>• Upholstered suites |

Bigger items take a little longer to deliver because they need two people to carry them. These are marked in the catalogue as 'home delivery only' – see page 1761 for details.

**Convenient time slots** Usually we can offer morning (7am to 12pm), midday (10am to 2pm), and afternoon (12pm to 6pm) delivery slots, Monday to Saturday, although this will vary depending on the product.

**Right to your room** As an added bonus, these items can usually be delivered to the room of your choice – so no shifting heavy furniture around, see page 1761 for details.

**Don't forget.** It's only £4.95 per order, not per item, so if you've got a lot to get it's a good idea to order it all at the same time.

**It's easy to get your products delivered** – all you need is your catalogue numbers, delivery address, postcode and payment details.

There are three simple ways to arrange your delivery...

## Visit www.argos.co.uk

Choose your delivery option when you shop online.

## Give us a call

Phone us on our delivery order line on 0870 600 2020 between 8am and 10pm, 7 days a week.

## Visit us in store

Pop in to your nearest store and ask for home delivery, see page 1763 for details.

**Any questions?** Visit our FAQs at www.argos.co.uk, just click on the customer services icon, or call us on 0870 600 2020. For returns see page 1761

### Platinum Diamond Ring

Platinum is the most precious of metals. It is the most durable and purest metal. It does not fade or tarnish and will keep its looks for a lifetime.

Platinum is also ideal for those with sensitive skin.

## Argos Quick Guide to diamond quality

**Diamonds are a beautiful and rare natural resource available in many different quality levels. They are graded by colour, clarity, cut and carat.**

To help choose the best one for you, every page of the Argos diamond ring range features a symbol highlighting the quality of diamond used in the rings shown.

Below are the three quality categories to make choosing even easier.

### Premium Quality Diamonds

These are STUNNING premium quality diamonds for the special person in your life as an eternal symbol of love

- Guaranteed minimum colour of J so the diamond is near colourless
- Guaranteed minimum clarity of I1-I2 so the diamond will have minimal inclusions but hardly noticeable to the naked eye
- Range of carat sizes in round and princess cut diamonds
- Each diamond has been independently assessed by the BGI (British Gemmological Institute) and comes with a BGI Certificate guaranteeing the clarity and colour of the diamond

### Luxury Quality Diamonds

These are SPARKLING luxury quality diamonds for special occasions

- Minimum colour of J so the diamond is near colourless
- Minimum clarity of I2 with inclusions that are barely noticeable to the naked eye
- Range of carat sizes in princess, marquise and round cut diamonds

### Quality Diamonds

These are QUALITY diamonds for that special person or a treat for you

- These diamonds are tinted white and have inclusions which are visible when examined closely
- Range of carat sizes in princess and round cut diamonds

**GDW = Guaranteed Diamond Weight.**
**1 carat = 100 points 1/4 carat = 25 points**
**1/2 carat = 50 points 1/5 carat = 20 points**
**2/5 carat = 40 points 3/20 carat = 15 points**
**1/3 carat = 33 points 1/10 carat = 10 points**

BGI BRITISH GEMMOLOGICAL INSTITUTE

## Certificated Diamonds

Every brilliant cut diamond solitaire ring is exquisitely crafted and lovingly presented in a box with a certificate of authenticity from the British Gemmological Institute, guaranteeing the colour and clarity of each diamond.

Each diamond is guaranteed a minimum of J colour and minimum I1-I2 clarity.

Argos gold is still weighed using the traditional method of troy ounces (31.1g/1oz) which are slightly heavier than the more widely used measurement of imperial ounces (28.8g/1oz) in the market place, offering the customer better value for money.

▼ = AW = Approximate Weight (5% tolerance).
GW = Guaranteed Weight.
GDW = Guaranteed Diamond Weight.
Please refer to page 11 for more details.

° Items can be picked up straight away from selected stores or by special order from others.

## Argos Quick Guide to leather

### Leather Explained

**Semi-Aniline.** A soft, natural looking leather where some of the unique surface characteristics of the animal hide remain visible. Some shade variation may be experienced but this will enhance the depth and character of the leather's appearance. **Best for** soft texture and retaining natural characteristics.

**Antique Leather.** A leather to which a special surface has been applied to give the 'aged' appearance of more traditional leathers. There will be natural marks and some shade variation and this type of leather will mature over time. **Best for** a traditional 'aged' look.

**Full Corrected Grain.** The leather has a thicker surface which is coated to enhance its durability. However, the original appearance of the leather remains untreated to ensure it retains its natural characteristics. **Best for** a combination of durability and natural appearance.

**Corrected Grain.** This has a thicker surface to enhance durability and is extremely hardwearing. The original leather surface is lightly treated to remove any imperfections before the surface coating is applied. The result is an even finish with no blemishes. **Best for** hardwearing with uniform appearance.

**Split Leather.** Uses the middle or lower section of the hide which is covered with a polymer coating and embossed to mimic the grain of the leather. Split leather is only used in non-wearing areas such as the back and side panels of a sofa.

### Leather Care

To keep leather soft and supple, you need to protect and care for it:

Dust regularly with a soft brush or duster. In the event of a spill, blot with a clean dry cloth.

Clean every six months using a specialist cleaning kit, order cat no 0034/4540 at £19.79, see main catalogue page 560.

Switch cushions regularly where applicable for even wear.

Avoid placing your leather upholstery in direct sunlight or close to a heat source as the surface appearance may be affected.

Standard REAL LEATHER — Corrected grain leather used on wearing surfaces to ensure durability and a uniform finish. Great value for money furniture offering comfort and style.

Deluxe REAL LEATHER — Luxurious furniture offering enhanced comfort and quality in corrected grain leather. A durable leather in a range of stylish, attractive designs.

Premium REAL LEATHER — Semi-aniline, antiqued or full corrected grain leathers offering a soft, supple finish while retaining their natural leather appearance. Superior quality and luxury in a selection of distinctive designs.

Up to 3 years cover from only £5.99*

Argos

Furniture Insurance

Keep your furniture looking great!

- Cover for up to 3 years
- Cover for accidental rips, tears, burns and stains
- Cover for structural defects after the end of the manufacturers warranty
- If it can't be repaired, Argos vouchers could be given to replace it
- No excess to pay

The best way to enjoy peace of mind

Furniture Insurance covers many items in this catalogue, from mattresses, divans, sofabeds and suites, through to bedroom furniture. It's the low cost way of making sure that help is just a call away should an accident happen. With no excess if you need to make a claim, it really could pay to take out this great value insurance.

Terms and conditions apply.

What can you cover with Argos Furniture Insurance?

• Table & Chairs Sets • Beds/Divans • Reclining Chairs • Sofas • Suites • Mattresses • Sofabeds/Futons/Cots • Wardrobes • Dressing Tables • Chest of Drawers

Cover is provided by Allianz Insurance plc. For further information please see page 1762. *Full details can be found in the in-store leaflet.

PAY NOTHING FOR UP TO 3 MONTHS! PAY NOTHING for up to 59 days on anything or 3 months when you spend over £95. For more information about the Argos Card, see page 1756.

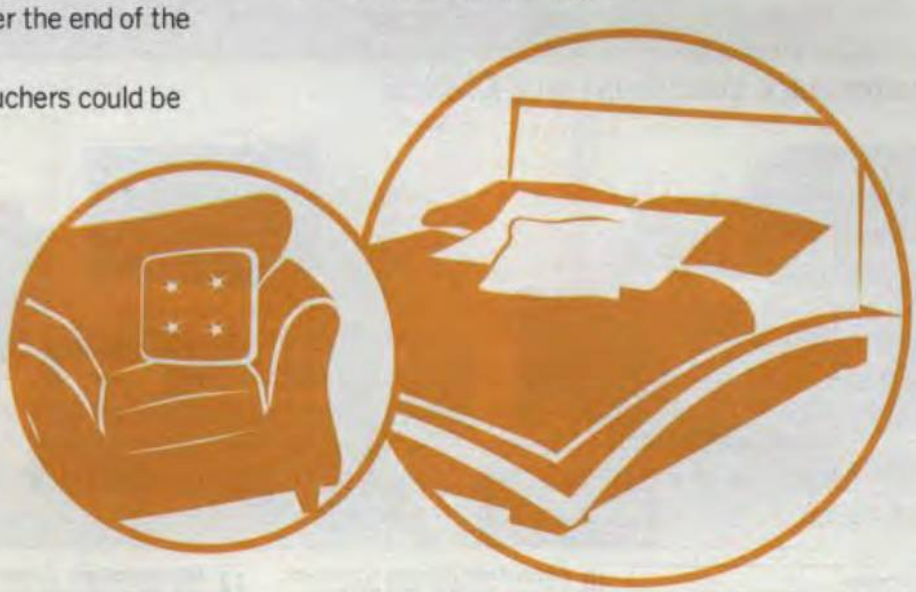
### The best way to enjoy peace of mind



Furniture Insurance covers many items in this catalogue, from mattresses, divans, sofabeds and suites, through to bedroom furniture. It's the low cost way of making sure that help is just a call away should an accident happen. With no excess if you need to make a claim, it really could pay to take out this great value insurance.

### Taking out cover is easy

- Cover can be bought from all Argos stores and Argos Direct
- The price of Furniture Insurance depends on the type and price of the furniture you are buying. Ask a member of staff to find out how much cover costs for the item you are buying
- Cover can be taken out up to 45 days from purchasing your item providing it has not been damaged in any way
- A full refund is available if you change your mind within 45 days if you haven't made a claim

Terms and conditions apply.

### What can you cover with Argos Furniture Insurance?

• Table & Chairs Sets • Beds/Divans • Reclining Chairs • Sofas • Suites • Mattresses • Sofabeds/Futons/Cots • Wardrobes • Dressing Tables • Chest of Drawers

Cover is provided by Allianz Insurance plc. For further information please see page 1762. *Full details can be found in the in-store leaflet.

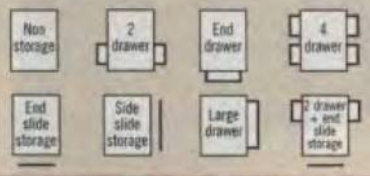
# Argos Quick Guide
## to buying a new divan or mattress

For maximum comfort it's a good idea to change your divan or mattress every eight years. At Argos, we offer a wide range of beds so you can choose from the UK's favourite manufacturers. And with a number of storage options too, we're sure to have the ideal one for you. Plus we also offer a 30-day money-back guarantee†. The best way to find your perfect bed is to follow these three easy steps:

### Step 1 Choose your bed base

There are two main types of divan base:



**Platform top** divan bases have a rigid fixed top for a firmer feel.

**Sprung edge** divan bases are sprung across the top, making your bed feel bouncier and more luxurious.

†See page 1758 for details.

### Step 2 Choose your storage

A number of storage options are available:

### Step 3 Choose your mattress

Use the handy icons we've place next to each mattress to help you choose the most comfortable one for you.

There are different types of construction. Open coil means the mattress has wide springs, while continuous spring uses interwoven wire for a more responsive feel. Trizone or Posturezone mattresses provide greater support in the centre, and a pocket sprung mattress has individual springs woven into the fabric, reducing pressure points by moulding to your body's profile.

### Mattress tops protect your mattress and add comfort

**Latex mattress** tops inhibit dust mites and have hypoallergenic properties that can significantly help asthmatics.

**Memory foam mattress** tops use body heat to adjust to the contours of your body, to give you added support and relieve pressure on your spine

It all adds up to a really great night's sleep, so get shopping and you can look forward to a good rest when you get home!

## Single divans from only £97.99

**PAY NOTHING FOR 3 MONTHS!**
see below for details

# Love2Sleep
*by Slumberland*

The Love2 sleep posture springing range of divans are platform topped with a choice of 4 mattresses. With the posture springing spring system, rows of springs are linked from side to side to help distribute weight evenly across the entire sleep surface to prevent 'roll together'. Contains twice the number of springs of an ordinary mattress.

### 5 Love2Sleep Posture Spring Deluxe

The posture springing system contains twice the number of springs to an ordinary mattress allowing the mattress to help distribute weight evenly across the entire sleep surface to prevent 'roll together'. Adding to this, extra layers of luxurious upholstery creates even greater levels of comfort. 9" (20cm ) deep.

### 6 Love2Sleep Posture Spring Latex

Adding to the posture spring system this mattress contains an added layer of latex on top. The latex moulds perfectly to the shape of the body to give exceptional comfort and support while inhibiting dust mites and providing hypoallergenic properties that can significantly help asthmatics. 8" (20cm) deep.

### 7 Love2Sleep Posture Spring Memory

Adding to the posture spring system this mattress contains a layer of visco-elastic memory foam. The memory foam moulds to the contours of the individual to create perfect support. Memory foam can help to alleviate muscle pains, improve circulation and reduce restlessness. 8" (20cm) deep.

### 8 Love2Sleep Posture Spring Pillow Top

Adding to the posture spring system with a pillowtop for added luxury the pillowtop contains numerous layers of high quality upholstery to create an extra comfort layer to the top of the mattress, helping to give a more luxurious night's sleep. 8" (20cm) deep.

Mattresses may look similar, but there can be great differences inside, so we provide individual guides to their construction and show firmness ratings.

**Sealy Posturepaedic.** Multiple layers of sumptuous upholstery finished with a luxurious, hand tufted, Belgian damask cover. The patented Sealy "Torsion" sprung base prevents mattress movement and improves the beds life and performance. Features 4 handles to ease turning and 2 air vents.

**Sealy Posturepaedic Latex.** Complementing option 1, this non-turn mattress has a generous layer of natural , hypoallergenic latex that moulds and conforms to your body. Also features the Sealy "Torsion" sprung base as in option 1.

**Sealy Posturepaedic Pillowtop.** Building on option 2, this non-turn, traditionally hand-tufted mattress features a sumptuous pillow top , filled with deep layers of luxurious yet firm and supportive upholstery. Also features the Sealy "Torsion" sprung base. .

**Sealy Posturepaedic Memory.** This non turn, micro quilted mattress benefits from having a generous layer of Memory Foam which moulds to the shape of the sleepers body for even support, comfort and correct spinal alignment and complimented by the Posturepaedic Offset spring system.

# Heated underblankets from only £12.99

## Argos Quick Guide to Heated blankets

### Putting your safety first

All Argos Heated Blankets and heat pads undergo rigorous testing and conform to all relevant UK and European safety standards.

**Safe for all night use** – All Argos blankets are suitable for all night use and include an overnight protection mechanism for your comfort and assurance.

**Pre-heat facility** – All Argos blankets have pre-heat facility to warm the bed prior to use.

MACHINE WASH **Machine washable** – Detachable control(s) ensure your blanket can be kept clean and fresh.

HEAT SETTINGS **Heat settings** – Allow the blanket to be set at varying temperatures.

DUAL CONTROLS **Dual controls** – Allow the heat settings on each side of the blanket to be adjusted to suit individual preference. Applies to double and king size blankets and duvets.

FAST HEAT **Ultra fast heat up** – Exclusive to Dreamland Ready for Bed. Heats up in approximately 10 minutes.

### Which blanket is for you?

**Mattress Covers** – Easy to fit, they cover the entire mattress and the elasticated skirt holds the whole cover in place just like a fitted sheet.

**Underblankets** – Lie flat on top of the mattress. Held in place either with tie tapes under the mattress or the nature of the material simply holds the blanket in place.

**Overblankets** – Can be used inside the bed cover or with conventional bed coverings.

**Duvets** – 6.5 to 15 tog all weather heated duvets have dual controls and heat within 10 minutes.

**Anti-allergy** – Supported by the British Allergy Foundation, these mattress covers can reduce the life of dust allergens.

### Keep warm for under 1p per hour*

*Based on a double blanket at the standard domestic rate

## Argos Quick Guide to heated towel rails

**Heated towel rails can be used as a primary heat source, depending on the size of the room, but are designed to ensure warm towels every time you step out of the shower or bath. Towel rails are either:**

- Suitable for hot water central heating systems.
- Suitable for electrical systems. These products can be installed into any room especially those excluded from the central heating system. They should always be installed by a qualified electrician/person.
- Ideal in the summer months when the central heating is switched off.

## Heated towel rails from only £79.79

Typical 27.9% APR variable
PAY NOTHING for 3 months when you spend over £95 or 6 months when you spend over £195. For more info about the Argos Card, see page 1756.
PAY NOTHING FOR UP TO 6 MONTHS!

## Supersoft, thick absorbent 550 gsm bathroom towels, made from the finest Egyptian cotton yarns

5 Pair of Egyptian cotton towels from only

**£6.99**

inspire COLLECTION

**6** Inspire Collection Supima *extra*
600 gsm cotton towels.
Made from the highest quality cotton, these generously thick, cuddly towels give a magnificently luxurious feel. The extra length of Supima cotton creates supple, finer fabrics to give a sumptuously cosy towel.
Made to last, the strong, durable cotton fibres give a lustrous, wonderfully soft surface that's less prone to piling and incredibly absorbent. The Supima quality means they will keep their colour longer than Egyptian cotton and will look like new, wash after wash after wash. 100% cotton.

Pair of hand towels.
Size 50 x 90cm.

# Electric showers from only £49.99

## Argos Quick Guide to electric showers

Electric showers only take water from the mains cold water supply. When you have a shower, you don't use any stored hot water, the shower heats only what you need - so electric showers are ideal for families and households where there is limited supply of hot water.

**HEAD MODE** The handset has a choice of spray patterns.

**PUSH BUTTON** Push-button start/stop so your temperature and flow settings can remain the same each time the shower is used.

**TEMP CONTROL** Temperature is manually controlled and can be affected by other household appliances.

**SHUTDOWN** Flushes hot water from the shower before it finishes for the safety of the next user.

**EASY CLEAN** Handset with rub-clean nozzles to help prevent the build up of limescale.

**THERMO** A thermostatic shower provides consistent temperature control, where the shower temperature isn't affected by the use of other household appliances - allowing for safe showering for all the family.

| | | | |

## Power showers from only £99.99

### Argos Quick Guide to power showers

Power showers take water from both the hot and low pressure stored cold water supplies and mix them together.

**HEAD MODE** The handset has a choice of spray patterns.

**FLOW RATE** The amount of water that goes through thee handset; the higher the flow rate the more powertul the shower.

**SHUTDOWN** Flushes hot water from the shower before it finishes for the safety of the next user.

**PUSH BUTTON** Push-button start/stop so your temperature and flow settings can remain the same each time.

**EASY CLEAN** Handset with rub clean nozzles to help prevent the build up of limescale.

**THERMO** A thermostatic shower provides consistent temperature control, where the shower temperature isn't affected by the use of other household appliances.

**HELPLINES: Electric/power showers.**
**For full technical details of installation or for a fitting instruction leaflet please call the appropriate customer helpline. All Argos showers are BEAB approved.**

# Mixer showers from only £84.99

## Argos Quick Guide to mixer showers

Mixer showers take water from both the hot and cold water supplies and blend the water to reach the desired temperature. Ideal for homes with a plentiful supply of hot water.

**HEAD MODE** The handset has a choice of spray patterns

**AUTO SHUTDOWN** The shower will automatically shut down if there are large fluctuations in the pressure of the hot or cold water supplies

**DUAL CONTROL** Separate controls for temperature and flow

**ALL SYSTEMS** The shower is compatible with all plumbing systems

**SURFACE MOUNT** The shower valve can only be installed onto the surface of the wall or tiling

**THERMO** A thermostatic shower provides consistent temperature control, where the shower temperature isn't affected by the use of other household appliances - allowing for safe showering

## Argos Quick Guide to scales

Mechanical scales are easy to operate and do not require batteries. They have good accuracy for general use.
Electronic scales are more precise with higher accuracy technology. They are battery operated with easy to read digital displays.

**CAPACITY** How much the scale weighs up to and in what divisions.

**GUARANTEE** Manufacturer's product guarantee in addition to statutory rights.

**COMPACT** Smaller platform takes up less space.

**EASY READ DIAL** Weight measurement can be clearly read.

**MEMORY** Number of users who can store data and record weight.

**GOAL TRACKER** The user sets a goal and the scale will track progress. It shows the user how much weight has been lost or gained so far and how far away the user is from the target weight.

**BATTERY INC** Battery supplied with the scale – ready to use.

# Argos Quick Guide
## to Linen storage

**Which type of linen storage is for you?**

**Vinyl storage bags** – Wipe clean PEVA fabric and see through lids. Zip closed to protect contents. There are 2 types, underbed and jumbo. Jumbo is suitable for the bulkier items such as duvets and pillows.

**Canvas storage bags** – conveniently sized to fit under most beds. These washable bags zip closed but remain breathable. Ideally suited to the storage of single natural duvets or woollen jumpers.

**Vacu bags** – space saving storage in various sizes. The extra large vacu bags will store up to 6 large sweaters in the space of less than one. The strong material will not tear and once sealed locks out moths, moisture, odour and dust. Items spring back to their original shape when removed from the reusable bag. After filling, just suck out the air with your vacuum cleaner nozzle.

**Compression bags** – Similar to vacu bags but do not require the use of a vacuum. Manual compression expels the air. Moisture and air tight, these are ideal for travelling as they save suitcase space.

## Great value

**11** Set of 2 extra large vacu bags only **£9.99**

**10** £3.99
Pack of 2 jumbo vinyl bags

**12** £9.99

## Argos Quick Guide to Heating

**Oil filled radiators.** A stable and reliable room heater. Ideal for longer term use and maintaining background heat also ideal for any size room. For increasing efficiency choose a heater with electronic climate control.

1kW **Watts.** More watts means more power in the heater and therefore more heat. As watts increase so too will energy consumption and running costs.

TIMER **Timer.** Allows you to set the time when you want the heater to switch on and switch off. Provides a solution to control how much energy is being used.

VARIABLE THERMOSTAT **Variable thermostat.** Gives you control over the temperature of the heat and helps with energy consumption as the temperature can be set so not to overheat the room and waste energy.

ECC **ECC (Electronic Climate Control).** Ensures ultimate accuracy to maintain chosen temperature and is more energy efficient as it is less likely to underheat or overheat the room.

**Other features to look out for**

**Turbo fan.** Small fan heater attached to the main appliance that provides a quick hit of instant heat while the main body of the heater gets to the required temperature.

## Argos Quick Guide to Heating

**Oil-free heaters.** Energy efficient because they heat the room quicker and more effectively than traditional oil-filled radiators. They are lighter, more environmentally friendly as they do not use oil and are easier to recycle than traditional oil-filled radiators. Ideal for any size room.

- **1kW** — **Watts.** More watts means more power in the heater and therefore more heat. As watts increase so too will energy consumption and running costs.
- **TIMER** — **Timer.** Allows you to set the time when you want the heater to switch on and off. Provides a solution to control how much energy is being used.
- **HEAT SETTINGS** — **Heating settings.** Gives you added flexibility over how much you heat your room.
- **VARIABLE THERMOSTAT** — **Variable thermostat.** Gives you control over the temperature of the heat and helps with energy consumption as the temperature can be set so not to overheat the room and waste energy.
- **ECC** — **ECC (Electronic Climate Control).** Ensures ultimate accuracy to maintain chosen temperature and is more energy efficient as it is less likely to underheat or overheat the room.

# Argos Quick Guide
## to choosing your designer radiator

1. Multiply the room length, width and height in cubic feet
(Typical example: 10 feet wide x 12 feet long x 8 feet high ceilings = 640 cubic feet).
2. Multiply this figure by 5 to get the required BTUs
(Typical example: 640 cubic feet x 5 = 3200 BTUs required).
3. Add 10% for rooms with extra window space or outside walls
(Typical example: 3200 plus 10% = 3520 BTUs due to full length patio doors to garden).
4. Reduce by 10% for upstairs rooms, entrance halls and kitchens
(Typical example: Living room = no reduction = Total BTUs required 3520 BTUs).
5. Make sure there is enough space to fit the chosen radiator on the wall selected.
6. Choose your designer radiator, allowing extra space for the valve.
7. Choose your designer valves (also available from Argos).
8. Purchase the radiator and valves.
9. Now you are ready to install your designer radiator
(Argos recommends you use a qualified installer).

## Argos Quick Guide to Panel heaters

Provide excellent background heat, ideal for small to medium rooms that need a constant low level of background heat to be maintained. Most products are very efficient with costs as low as 1p per minute. Models can be wall mounted and are either oil filled or convector.

**1kW** **Watts.** More watts means more power in the heater and therefore more heat. As watts increase so too will energy consumption and running costs.

**TIMER** **Timer.** Allows you to set the time when you want the heater to switch on and switch off. Provides a solution to control how much energy is being used.

**HEAT SETTINGS** **Heat settings.** Gives you flexibility over how much heat you use.

# Argos Quick Guide to Convector heaters

**Convector heaters** Provide quick heat especially if the convector has a turbo function. Through the use of convection the heat will be circulated around the room thereby maintaining a constant temperature. Ideal for medium rooms. Most convectors will have a similar functions to the oil-filled radiators.

- **1kW** **Watts.** More watts means more power in the heater and therefore more heat. As watts increase so too will energy consumption and running costs.
- **TIMER** **Timer.** Allows you to set the time when you want the heater to switch on and off. Provides a solution to control how much energy is being used.
- **HEAT SETTINGS** **Heating settings.** Gives you flexibility over how much heat you use.
- **VARIABLE THERMOSTAT** **Variable thermostat.** Gives you control over the temperature of the heat and helps with energy consumption as the temperature can be set so not to overheat the room and waste energy.
- **ECC** **Electric climate control.** Ensures ultimate accuracy to maintain chosen temperature and is more energy efficient as it is less likely to under heat or overheat the room.

**Other features to look out for: Turbo fan** Small fan heater attached to the main appliance that provides a quick hit of instant heat while the main body of the heater gets to the required temperature.

# Argos Quick Guide to Heating

**Fan heaters.** Light and compact, ideal for providing instant, short bursts of heat for cold spots in any room.

**1kW** **Watts.** More watts means more power in the heater and therefore more heat. As watts increase so too will energy consumption and running costs.

**TIMER** **Timer.** Allows you to set the time when you want the heater to switch on and off. Provides a solution to control how much energy is being used.

**VARIABLE THERMOSTAT** **Variable thermostat.** Gives you control over the temperature of the heat and helps with energy consumption as the temperature can be set so not to overheat the room and waste energy.

**ECC** **Electronic climate control.** Ensures ultimate accuracy to maintain chosen temperature and is more energy efficient as it is less likely to underheat or overheat the room.

**OSCILLATING** **Oscillation.** Allows the heat to be distributed more evenly over the immediate area. Oscillation allows the fan heaters to swivel from side to side whilst blowing out warm air.

**COLD BLOW** **Cool blow.** When the heating element is turned off allows the fan to blow cool air around the room.

## Great value

### 2kW upright heater

NEW

**£14.97**

2kW | 3 HEAT SETTINGS | VARIABLE THERMOSTAT

**1** **2kW oscillating upright fan heater.** • Frost protection. • Size (H)30, (W)42, (D)49cm.

# Argos Quick Guide
to Air conditioners

**How do they work?**
Air conditioners take heat from any room and expel it to the outside of the building, leaving rooms cool and comfortable. They are easy to install, connecting to 13amp sockets.

All the units on this page are single units, which expel heat via an exhaust hose, which must be vented through a window or wall.

All our units are supplied with exhaust hoses.

**How cold can I make a room?**
All our units have a minimum cooling setting of 16°C.

**What size room will they cool?**
Air conditioning unit capacity is measured in BTUs (British Thermal Units). The room size will determine the capacity of the air conditioner you need. Use the simple table below to discover which unit is suitable for you.

All air conditioners are graded from A to G for energy efficiency with grade A being the best, saving you money.

| BTU | 9,000 | 12,000 |
|---|---|---|
| Room Size | Up to 20m² | Up to 30m² |

| Item No | Brand | Energy Efficiency Class A-G | Annual Consumption kW/hour | Cooling Output kW | Heat Output kW | EER (Energy efficiency ratio) |
|---|---|---|---|---|---|---|
| 11 | Challenge | A | 435 | 2.35 | n/a | 27 |
| 12 | Challenge | A | 435 | 2.35 | n/a | 27 |
| 13 | Challenge | C | 6575 | 2.97 | 2.3 | 2.26 |
| 14 | Challenge | C | 6575 | 2.97 | n/a | 2.26 |

# Argos Quick Guide to Air Purifiers

**Why buy an Air Purifier?**

- Air cleaners and purifiers ensure we can improve the air we breathe by reducing the airborne pollutants in the home, such as dust mites, pollen and pet hair. An air purifier can help alleviate symptoms of respiratory problems by removing the pollutants.

**Types of Air Purifiers**

- **HEPA Filters** remove 99.97% of all airborne particles, through the air passing a tightly woven glass fibre filter.
- **Ionisers** work by the joining of negative ions with positively-charged pollutants, thereby creating a larger particle that can be removed by a filter.
- **UV/ Tio2** breaks down the pollutants' chemical bond to create harmless constituents such as water and carbon dioxide.
- **Plasma** is capable of breaking down all kinds of pollutants such as airborne bacteria and viruses.

## Great value

**Bionaire tower air purifier only £154.99**

## Argos Quick Guide to Humidifiers

**Why buy a humidifier?**

- Heating systems and dry winter air often combine to reduce indoor humidity levels. Humidifiers replace lost moisture back into the air restoring the moisture balance. Increased humidity can help alleviate dry skin and can ease common respiratory problems.

**Types of humidifier**

- **Warm mist** An element turns the water into steam, which can be directed into the room.
- **Ultrasonic** Vapour is created through sonic pulses which break down the water molecules into a fine mist, which is then released into the air.

## Humidifiers from only £34.99

**9** **Prem-I-Air digital ultrasonic humidifier.** extra
• 4.5 litre tank. • LED display and soft touch controls. • 7 hour timer. • 300ml per hour humidifier capacity. • 3 operating settings. • Maximum room size 45m². • Auto power off. • Ioniser. • Integrated antibacterial system. • Size (H)30.5, (W)30, (D)16cm.

Replacement product cover up to 3 years – cat no 883/0825 £10.99

## AIR PURIFIERS
### What do they do for you?

By passing air through the filters, air purifiers help remove airborne particles such as dust mite allergens, pet dander and pollen. They also help eliminate tobacco smoke, cooking and other strong or unpleasant odours.

# Argos Quick Guide to Dehumidifiers

**Why buy a dehumidifier?**

- A dehumidifier removes the excess moisture that we create on a daily basis through activities such as having a bath, running dishwashers, washing machines, cooking and drying laundry, which could lead to condensation, damp, mould and mildew. A dehumidifier can help maintain a more constant level of humidity and can alleviate conditions such as mould, damp and mildew.

**How to choose the right dehumidifier for your home.**

- **Extraction rate.** The higher the extraction rate the more condensation will be controlled.
- **Efficiency.** An efficient unit will typically have lower running costs. Look for features like smart control, hydrophilic coated coils, intelligent defrost systems and rotary compressors as these will help increase the efficiency of your unit.
- **Design.** Consider the style and décor of your home and choose a dehumidifier which you are comfortable will fit into your home.

## Dehumidifiers from only £54.99

### Great value

**10 litre dehumidifier only**

**£79.97**

# Heating from only £59.00

## Argos Quick Guide to Fires

**All electric suites have the following features:**

- 1kW and 2kW heat settings (except page 581, item 16).
- Independent flame/glow and heat features.
- Suitable for flat wall installation.
- No flue or chimney required.

Optiflame® An optical illusion of 3D flames applied over an artificial or real fuel bed.

spectraflare® A choice of ambient coloured flame effects created by fibre optic technology.

**Multi-flue Gas Fires.**
Item 6 on page 580 is a multi-flue gas fire compatible with the following chimneys:

If you do not have a chimney, this fire is not suitable - we suggest our electric fires.

**Flueless Gas Fires.**
Flueless gas fires do not require a chimney or flue. The benefits are: **100% efficiency** – no heat is lost up the chimney. **Ease of installation** – simply hang the fire on the wall with screws. Minimum room size and ventilation required, see product text for requirements.

You must use a CORGI registered installer to fit a multi-flue or flueless gas fire. Please contact CORGI for details on 01256 372300 or online at www.trustcorgi.com.

# Electric mobility and accessories from only £16.79

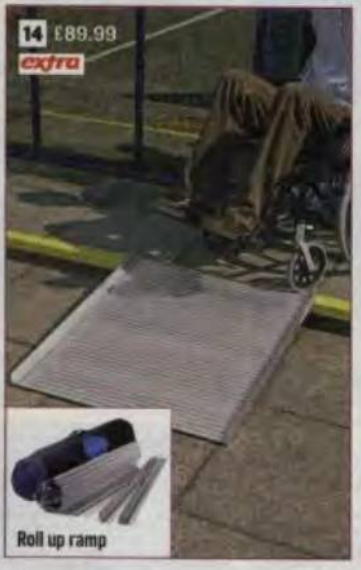
## Quick guide
### Stairlift

**Will it fit my staircase?**

**Is your staircase straight, without any bends?**

**Is the minimum width of the staircase (dimension A) greater than 68cm?**

**Is there a clear space at the bottom of the stairs (dimension B) greater than 70cm ?**



If the answer to all of these questions is yes we should be able to install this stair-lift in your property. Domestic use only.

When you have ordered your stairlift a fully trained surveyor will visit you to complete a detailed assessment to confirm suitability. We will then arrange a professional installation by our specialist team.

## Stairlift

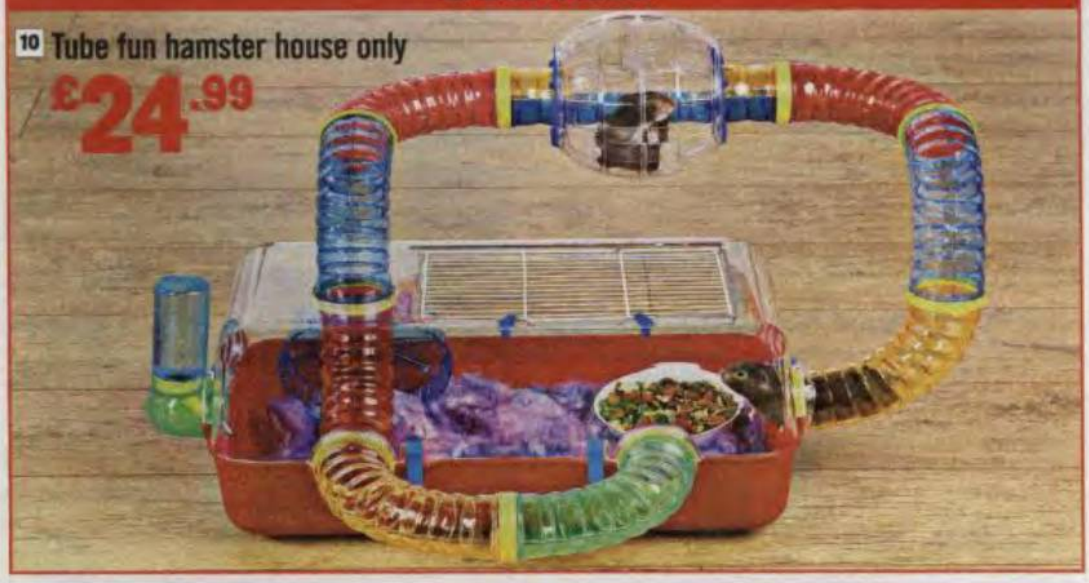
## Argos Quick Guide to Hamster homes



Keep your hamster home away from direct sunlight and direct heat (i.e. radiators). It needs to be placed somewhere warm indoors, away from draughts as your hamster may go into hibernation if it's too cold. Keep your hamster home on a raised surface.

Ensure your hamster home is set up and ready when you get your hamster, so it can move in with the minimum of stress.

Our great range of hamster homes includes starter kits, traditional wire cages and great fun plastic habitats with tubing.

## Great value

## Argos Quick guide to Aquariums

**Starter kits.**
Our starter kit includes all the essential equipment so all you need to do is set it all up when you get home. Starter kits are ideal for children.

**Cold water tanks.**
Cold water tanks do not require any heating. They are the easiest and cheapest option, making them an ideal choice for your first aquarium. Only cold water fish can be kept in a cold water tank, goldfish being the most common type.

**Tropical water tanks.**
Tropical tanks include a heating system so that you can maintain the temperature as tropical fish need warm water. Only tropical fish can be kept in a tropical tank.

**Please note:** Unless otherwise stated water conditioner must be added to the tank prior to adding fish.

## Great value

1 Spongebob complete aquarium only £24.99

**1 Spongebob complete aquarium.** extra
Plastic aquarium for 2 small cold water fish, e.g. goldfish. Includes coloured gravel, plant, pump, filter with replaceable cartridge, 'Bikini Bottom' background, fun stickers and resin Spongebob ornament. Lid has access flap for feeding. 16 litre capacity. Size (H)29, (W)39, (D)24.5cm.
**cat no 035/1773** **£24.99**

**2 Cold water starter kit.** extra
Plastic tank for 2 small cold water fish. Includes gravel and plant. Lid has acces flap for feeding. 9 litre capacity. Size (H)25.4, (W)45.7, (D)15.5cm.

# Argos Pet Insurance

# Could you afford £1,000 vet's fees?

You love your pet and if they became ill or had an accident, you'd want them to be looked after. Argos Pet Insurance claims in 2006 showed that treating your pet for diabetes or after a road accident can cost £1,000 or more. But for just a few pounds a month, you could protect your pet and your pocket with Argos Pet Insurance.

- **Silver** – covers vet's fees up to £1,000 per condition for 12 months from the start of your pet's condition.
- **Gold** – covers vet's fees up to £2,500 per condition for 12 months from the start of your pet's condition.
- **Platinum** – our best cover protects your pet for up to £6,000 per condition with no limit to the length of treatment.

As with all insurance, terms and conditions apply. Call for details.

### Ways to shop

#### Order online at www.argos.co.uk

Open 24 hours a day, 7 days a week. Simply enter the catalogue number of your chosen appliance into the search box and click through to buy – it couldn't be simpler!

#### Order by phone on 0870 600 20 20

Just get your delivery address, postcode, payment details and the catalogue number of your chosen appliance ready, then give us a call.

#### Order in store

Order in any of our 650 stores nationwide. Check your local store for opening times. No matter how you decide to buy, you always get great value!

#### Price Check it...

As part of our commitment to low prices, we check and cut over 500 catalogue prices every month. You can check our latest prices in-store, or use our Check & Reserve service by visiting www.argos.co.uk or call 0870 600 1010.

### Choose one of the following delivery options...

#### Delivery only

| 2-3 Days | 7 Days |
|---|---|
| **Express delivery only £19.99 (included in price shown). Selected lines only.** | **Standard delivery only £4.95 (additional charge to be added to price shown)** |

Subject to availability and geographic location.

#### Delivery and Installation

| Delivery and Connection | Hotpoint Delivery Connect & Collect |
|---|---|
| **Usually delivered within 7 days and we'll connect it too. From only £22.50. Selected lines only. (Included in price shown.)** | **From only £19.99 receive Hotpoint's Fast Track delivery in as little as 3 days. We will also install your new appliance, remove your old appliance and all packaging. Selected Hotpoint lines only. (Included in price shown).** |

Subject to availability and geographic location.

### Installation Guide

#### What you need to check

- Is there enough space for your new appliance to fit into, check the width, depth and height.
- That existing connections are accessible and within 1m of the new appliance - including an electrical socket.

#### Want your old appliance removed?

For a small charge, we will take away your old appliance when you order a new one. Please check that your existing appliance is similar in size to the new one and must be disconnected/defrosted and emptied of water prior to delivery, or we may refuse to take away.
See page 1761 for more details

Hotpoint · Indesit · Bosch · Zanussi · Electrolux · Hoover · Whirlpool · Beko · Servis

[1]Home delivery only. Just £4.95, no matter how much you order. [2]Express delivery usually within 2-3 days on selected lines, £19.99 delivery cost included within the catalogue price. See page 6 for details. Before you order, please make sure your doors are wide enough for this product, and you've enough space for it.

## Argos Quick Guide to washing machines

**Buying the right washing machine can be complicated, that's why we've explained key features to look for.**

**Spin speed**
Faster spin speeds remove more water from your clothes thereby reducing your clothes drying time.

**Load capacity**
A larger capacity allows you to wash more clothes at once. If you have a lot of washing or wash items such as double duvets then you may wish to consider a machine with a larger capacity. A 7kg machine capacity is 40% larger than a standard 5kg.

**Quick wash**
A pre-programmed wash cycle which reduces your washing time.

**Variable spin**
Lets you select lower spins speeds in order to protect delicate items.

**Energy**
All machines are graded from A to E for wash performance, energy and spin efficiency, with A being the best. Look out for AAA machines as these are more energy efficient and will save you money.

# The signs are good for savings!

Follow the npower orb and find your way to a range of energy efficient products. These use less energy than standard products so cost less to run.

## This is what you could save

Up to **£45** a year on running costs if you buy an A+ or A++ rated fridge freezer[1]

Up to **£20** a year by replacing your dishwasher with a new A rated model[1]

Up to **£9** a year by swapping a standard light bulb for an energy saving one[2]

[1] Savings assume replacing an average appliance purchased new in 1995 with an Energy Saving Recommended model of similar size and an electricity cost of 10.41p/kWh. Savings for A++ cold appliances are on average, £6/yr greater.

[2] Savings assume replacing a traditional 100W tungsten filament (GLS) lamp with a 20W Compact Fluorescent Lamp (CFL), an electricity cost of 10.41p/kWh and 1,114 hours of use per year. The hours of use assumed is the average for the two most used lamps in a typical household. Replacing lamps of lower wattage or usage will give lower savings, though reductions in energy consumption of the order of 75-80% should still be expected. Source: Energy Saving Trust 2007

npower is a registered trademark and the trading name of Npower Limited (registered in England and Wales No. 3653277), Npower Gas Limited (registered in England and Wales No. 2999919) and Npower Northern Limited (registered No. 3432100) which also acts as an agent for Npower Northern Supply Limited (registered No. 2845740) in the supply of electricity. Registered office: Windmill Hill Business Park, Whitehill Way, Swindon SN5 6PB.

Argos working together with npower

## Argos Quick Guide to washer dryers

**Washer dryers are ideal if space is an important consideration as they combine the features of a washing machine and tumble dryer in one. As they are all condenser dryers they are also easy to install.**

1600 spin

### Spin speed

Faster spin speeds remove more water from your clothes thereby reducing drying time required.

7kg Wash

### Wash and dry load

A larger capacity allows you to wash more clothes at once. A 7kg machine's capacity is 40% larger than a standard 5kg. Some machines can only dry ½ a wash load meaning two drying loads. To help your decision we have outlined the load size that can be completed in one cycle.

### Wash programmes

Woollen – provides the correct washing conditions to look after your woollens. Look out for the product with the Golden Woolmark endorsement as these are the best for looking after your clothes.

## Argos Quick Guide to tumble dryers

**The most important consideration is whether a vented or condenser machine best suits your needs.**

**Condenser tumble dryers**
Collects the water from your clothes in a reservoir which can be easily removed and emptied. These machines do not require venting.

**Vented tumble dryers**
Expels the damp air created by drying clothes via a hose which needs to be fixed through an outside wall or hung out of a window. All our machines include vented hoses.

**Drying load**
6kg Dry
The greater a machine's drum capacity the more drying you can do at any one time, making larger load capacity machines ideal for families.

**Set and forget**
You may wish to consider a machine with Set and Forget as they save you money by automatically stopping when your clothes are dry.

## Argos Quick Guide to dishwashers

**Dishwashers are a must for every busy kitchen as they are quick, convenient and can fit into smaller spaces than you may think.**

**Place settings**
This icon outlines how many place settings you can wash at one time. Full size machines typically hold 12 place settings with slimline typically holding 8.

**Noise**
50 dB Is measured in decibels with lower values highlighting quieter machines.

**Economy programme**
Saves money by using the minimum amount of water and electricity.

**Performance ratings**
All machines are graded from A to E for cleaning performance, energy performance and drying performance with A being the best.

For our range of slimline dishwashers see page 627.

For our range of built-in dishwashers see page 628.

Look out for AAA machines as these are more energy efficient and will save you money.

## Argos Quick Guide
to fridges, larders and freezers

**Buying the right fridge can be complicated, that's why we've explained key features to look for.**

**Capacity**
Capacity – shows the usual capacity of the model.

Undercounter models are ideal for smaller kitchens as they are designed to fit neatly under kitchen worktops.

Taller fridges and freezers generally have greater capacity making them ideal for families.

Fridges have the added flexibility of containing an ice box whereas larders do not.

Models with glass shelves are more hygienic as they are easier to clean.

**Energy**
All products are graded from A to G for energy efficiency, with A being the best.

## Drinks coolers from only £89.79

2-3 DAYS

## Buying the right fridge freezer can be complicated, that's why we've explained key features to look for.

**Size** When buying a fridge freezer, you may wish to consider the space you have in your kitchen. In order to help you with your decision, we have grouped our range together by width. If space is not an issue, you may wish to choose a stylish large capacity American style fridge freezer – see page 642.

**Capacity**
If you purchase lots of fresh food you may wish to consider a model with a large fridge.
If you purchase in bulk and store within the freezer, you may wish to consider a model with a large freezer capacity. To aid your decision our icons show both the net capacity of the fridge and freezer compartments.

**Frost free**
You never have to defrost your freezer again!

**Energy**
All products are graded from A to E for Energy efficiency. Look out for A rated products as these are more energy efficient and will save you money.

Models with glass shelves are easier to keep clean and hygienic.

Water and ice models offer chilled drinks and ice cubes on tap. However, these will need plumbing in.

## Fridgemaster

**Low price* only £149.99**

## Samsung Key Technologies

All Samsung fridge freezers come with the following technology

**Twin cooling**
Independent cooling of fridge and freezer to maintain freshness and flavour of food for longer and to prevent mixing of odours.

**Antibacterial protection**
The interiors are coated with antibacterial protection to fight against bacteria growth.

**True built-in LED display**
For precise control of the fridge and the freezer and for a true built-in look.

**Cool Select**
An additional fridge within a fridge within a fridge with 5 separate functions (item 8 only).

**Multi flow**
Less change in temperature for safer and better food preservation.

**Environmentally friendly**
All Samsung fridges use R600a a natural refrigerant that's CFC and HFC free.

**4-star rated freezers**
For longer storage of frozen food.

We have a range of over 80 cookers from £139.99 to £899.79

## Argos quick guide to Cookers

**Buying the right cooker can be complicated, that's why we've explained key features to look for.** Fuel type and space are important factors. Our ranges are grouped by gas or electric and width.

### Freestanding cookers

**Double oven**
Allows you to cook within both ovens at the same time. If the top oven has a grill you can cook in the bottom oven and grill in the top at the same time.
31L Top oven
65L Bottom oven

**Single oven with separate grill**
Cook in the grill and oven at the same time.
Top grill

**Single oven and grill**
Cook on either the grill or oven but not at the same time.
58L Oven

**Fan oven**
These cook more quickly and evenly than conventional ovens.
53L Bottom oven

**Ceramic hob**
Faster and easier to clean.
Ceramic hob

We have over 28 gas cookers, see page 647
See page 651 for our range cookers
See page 652 for our built in products

655 Cookers

# Microwaves from only £24.39

## Argos Quick Guide to Microwaves

**Manual/touch control microwaves.** See pages 656-658. Ideal for re-heating, defrosting and basic cooking.

**Microwaves with grill.** See page 659. This function can be used on its own or combined with the microwave function. Crisps and browns food with accelerated cooking times.

**Convection ovens with microwave and grill.** See pages 660-661. All the features of a microwave and grill but with the additional benefit of a fan assisted oven which ensures greatly reduced cooking times. Ideal for roasting meat, baking cakes etc.

| | |
|---|---|
| WATTS 800W | Higher watts means less cooking time. |
| CAPACITY 20L | Higher litres means more space. |
| DEFROST YES | Defrost or cook from frozen. |
| AUTO COOK YES | Auto cook menu will calculate cooking times. |
| GRILL YES | Crisps and browns food. |
| OVEN YES | Does all the jobs your major domestic oven will. Roast meat/bake cakes etc. |

# Argos Quick Guide to Microwaves

**Manual/touch control microwaves.** See pages 656-658. Ideal for re-heating, defrosting and basic cooking.

**Microwaves with grill.** See page 659. This function can be used on its own or combined with the microwave function. Crisps and browns food with accelerated cooking times.

**Convection ovens with microwave and grill.** See pages 660-661. All the features of a microwave and grill but with the additional benefit of a fan assisted oven which ensures greatly reduced cooking times. Ideal for roasting meat, baking cakes etc.

| | |
|---|---|
| WATTS 800W | Higher watts means less cooking time. |
| CAPACITY 20L | Higher litres means more space. |
| DEFROST YES | Defrost or cook from frozen. |
| AUTO COOK YES | Auto cook menu will calculate cooking times. |
| GRILL YES | Crisps and browns food. |
| OVEN YES | Does all the jobs your major domestic oven will. Roast meat/bake cakes etc. |

## Argos Quick Guide to Quiet boil

### Have you heard of the new quiet boil kettle?

New quiet boil technology now allows you to listen to your radio and TV in the kitchen, not the noise of your kettle.

For fast quiet boiling, look out for this logo on selected kettles.

shhh Quiet boil

DēLonghi
Living innovation

# Real Italian coffee, made the real Italian way...

DeLonghi pride themselves on being the authority on coffee, and have spent years perfecting the technology to allow true Italian coffee to be made right in your own home. Why not indulge in an incredible coffee experience every day?

Real Italian espresso is made at 15 bar pressure, and cappuccino always with fresh cold milk.

## ESPRESSO

An intense short coffee that originated in Italy - the true connoisseur's coffee.

## CAPPUCCINO

Made from one third espresso, one third hot milk, one third frothed milk.

## LATTE MACCHIATO

A long creamy drink made from lots of hot, slightly frothy milk and finished with a shot of espresso.

**1** DeLonghi Professional extra 15 bar espresso/cappuccino coffee maker. • 15 bar pump pressure, no limit to the number of cups produced. • Professional brushed stainless steel finish. • 18 illy coffee pods supplied but it can be used with ESE pods or any ground coffee. • 'Cappuccino System' milk frother. • Transparent 1.3 litre water tank. • Cup warmer. • Drip tray. • Makes 1 or 2 cups.

## Argos Quick Guide to crystal

**Brilliantly shiny and beautifully clear, every piece of crystal is unique – giving your dining table an individually crafted, elegant finish you can be proud of.**

**Lead oxide** is what makes crystal different from glass. The amount each crystal contains is shown as a percentage, and the higher the amount, the better the quality of the crystal. The highest possible level is 24%. Glass for domestic use doesn't contain any lead oxide.

**Crystal glass** contains less lead oxide than pure crystal, but it's still a great quality product with a brilliant shine.

**Sonority** is the sound a piece of crystal or glass makes when you strike it, or run a finger around the rim. Better quality glass produces a deeper, louder noise.

**Caring for your crystal**

- Wash each piece by hand in warm, soapy water. Then rinse in clean warm water and dry gently.
- Because the rim is the most fragile part of a glass, you should never store or leave the glass to dry upside down.

**12 pack** filters up to 1,800 litres – enough for one year supply, based on average family usage.
**cat no 840/6943** **£19.99**

## 4 Stage Filtration

1. Special mesh traps fine particles e.g. limescale, sediments.
2. Ion exchange resin reduces limescale and pollutants.
3. Activated carbon removes the odour and taste of chlorine.
4. Final filtration stage produces great tasting, crystal clear water.

All Kenwood water filters have been designed to fit in fridge doors.

Reduces build-up of limescale in electric appliances, helps to prolong their life.

Allows the natural aromatics in tea and coffee to fully develop and taste to improve.

All Kenwood water filter jugs come with one Free†† cartridge.

Less than 2p per litre of filtered water.

# Pressure cookers from only £19.97

## Argos Quick Guide to Pressure Cookers

Pressure cooking is faster on average than traditional cooking methods for certain foods.

Pressure cookers are a healthy cooking option. Their airtight mechanism ensures that more vitamins and nutrients are preserved retaining more flavours.

All our pressure cookers comply to 'The European Pressure Cooker Equipment directive'.

# Pan sets from only £19.99

## Argos Quick Guide to pan sets

**Non-stick aluminium**
Lightweight.
Good heat conduction.
Easy to clean.

**Stainless steel**
Hard-wearing.
Very durable.
Encapsulated bases (usually aluminium or copper) gives better heat conduction, with copper encapsulated bases being the most efficient.

**Cast iron**
A thick and heavy material with good heat retention even after the heat source is turned off. Ideal for slow cooking.

**Price cut
Want to know more? See page 1760.

# Floorcare from only £17.44 see page 792

## Argos Quick Guide to Floorcare

- 1800 WATTS — The higher the wattage the more powerful the motor.
- 4.2L CAPACITY — Maximum dust bag/ cylinder capacity.
- 7.0M CORD — Longer cord length gives you hassle free cleaning.
- 8.3KG WEIGHT — Lighter models are easier to manoeuvre and carry upstairs.
- COMPACT — Ideal for the smaller home or light cleaning; easily stored.
- HEPA — **HEPA Filtration** Ideal for allergy sufferers, removes 99% of airborne impurities such as tobacco smoke, dust and bacteria.
- Ideal for pet hair — These models have turbo brushes which are ideal for picking up pet hair. Some also have carbon filters which absorb pet odours.
- British Allergy Foundation Seal of Approval

# Argos Dyson Shop

Our largest range of Dyson products

# The cleaner that doesn't lose suction.

dyson

www.dyson.co.uk

Our unique technology means a Dyson doesn't lose suction. A five year guarantee on uprights and cylinders means they're built to last too.

Features explained

Root Cyclone™ technology
No loss of suction.

5 year parts and labour guarantee on all Dyson cylinder and upright vacuum cleaners.

All Dyson vacuum cleaners come with British Allergy Foundation Seal of Approval.

## Why Dyson?

**1 No loss of suction**
Dyson cleaners use unique cyclone technology to spin dust out of the air, so they don't lose suction.

**2 Your home is healthier**
It traps even microscopic bacteria and dust mites, so air expelled contains up to 150x less bacteria than the air you breathe.

**3 No hidden costs**
No additional costs as a Dyson uses lifetime filters and there are no bags to buy.

**4 Built to last**
It's tough enough to withstand bumps and bashes because it's made from the same material as motorcycle helmets.

**5 Five year guarantee**
Every Dyson upright and cylinder has a five year parts and labour guarantee.

**Only a Dyson has all five.**

## 1 DC07 The original Root Cyclone™ Upright

# Vax

## Why wash carpets?

- Prolongs carpet life
- Brightens colour and pattern
- Refreshes carpet fibres by extracting odours
- Removes pollen and dust - the main triggers of asthma and hayfever

### Key:

- Static brushbar - agitates carpet fibres to loosen embedded dirt.
- Lightweight
- PowerJet technology - jets of water apply AAA solution and clean water mix into carpet fibres.
- Large tank capacity - spend less time refilling.
- Rotating brushbar - agitates deep into carpet fibres to loosen embedded dirt.
- On-board wash tool and flexible hose - ideal for refreshing stairs, upholstery and car interiors.
- Handheld - ideal for spot cleaning.
- Carpet treatment wand & solution - Pre-treat - apply prior to washing to high traffic areas and stubborn stains. Post-treat - helps to minimise resoiling.
- Great for pets.
- Contra-rotating brushbars - Two brushbars agitate deeper into carpet pile to loosen and lift embedded dirt and debris.
- Power Wash Brush - two powered scrub brushes oscillate to agitate embedded dirt and stains.
- Stair hose - Extra long 4.2m stretch hose gives full height stair cleaning.
